- **K-T asks:** “What changes in data products or pipeline step complexity or memory usage are known or anticipated? What is the plan for [DM-22082: Compare science inputs to sizing with outputs from HSC reprocessing?](#)”
- The proposed plan:
 - Make use of upcoming HSC-PDR2 and DC2/DP0.2 reprocessed data products to address this question to estimate needs
 - Timeline: Q2/Q3 2022
 - Hardware for ComCam processing?
