

# Reprocessing of the HSC RC dataset

This page summarizes the reprocessing of the HSC RC dataset, as defined in [S17B HSC PDR1 reprocessing#RCdataset](#).

The processed repos are available at the `/project/hsc_rc/` GPFS storage available to all DM team members. The results of the last four runs are retained; **repos older than the four most recent runs are subject to removal without further notice.**

Starting w\_2018\_04, the reprocessing has switched to the RC2 dataset: see [Reprocessing of the HSC RC2 dataset](#)

More info about each reprocessing can be found on its JIRA ticket.
