

LSST Data Model

This page will organize links to a variety of information defining the LSST data model.

Background Documents

- The Data Products Definition Document ([DPDD](#), [LSE-163](#))
- The IVOA [ObsCore standard](#)
- The OpenCADC [CAOM2 data model](#) for observational metadata

LSST technical notes

- [DMTN-067](#), Catalog Data Model (to be revised based on the drafts below)

Drafts and meeting minutes (child pages)

- [Ad-hoc data model working group 2018-09-20 meeting notes](#)
- [Ad-hoc data model working group 2018-10-04 meeting notes](#)
- [Straw-man Mapping from Gen3 Butler Schema to CAOM2](#)
- [The Science Data Model and its Standardization\(OBSOLETE\)](#)

Open Issues

List of actions needed to move the work along

- [Gregory Dubois-Felsmann](#) Read  [DM-6655](#) - Webpage of flags produced by various stack products TO DO and think about its implication for the Science Data Model. **18 Oct 2018**
