Date

28 Mar 2019

Attendees
Gregory Dubois-Felsmann
Igor Gaponenko
Fabio Hernandez
Brian Van Klaveren
Michelle Butler
Simon Krughoff
Kian-Tat Lim
Fritz Mueller
John Swinbank

[Frossie Economou](#) joined today too.

- Discussion items

Item	Who	Notes
Review of last meeting notes	Michelle Butler	<ul style="list-style-type: none">Any updates
LDM	Unknown User (mbutler)	Fabio Hernandez to get link for the Idm review today.
tickets	Simon Krughoff	Simon asked for a few tickets status
lsp config	Brian Van Klaveren	Brian was asking about the status of the new egress AND a separate matter of separating the egress of the "stable" vs "int". Most of the work that NCSA has been working on is the "non-firewall" set of machines. We are implementing some K8 logging from the security team for the public non firewall systems. That is where the majority of the work has been. The new egress AND the separation of stable and int egress are next in the list, but the new egress is more work than the separate egress.
LSP changes	Frossie Economou	a suggestion starting next week for "stable" to be locked down from changes unless approved by Gregory Dubois-Felsmann or Frossie Economou That is fine by us, and Unknown User (mbutler) will send out a note on Infrastructure channel for the "lock" down Please until after the LSP review on 4/12.
