Discussions

Item	Who	Notes
Item	Who	Notes
Items from MichelleB about infrastructure	Unknown User (mbutler)	<ul style="list-style-type: none">• Config for Duo new codes generation is changing this fall. Much more scalable solution coming.• /datasets ownership is being looked at• No August Maintenance• September maintenance will be on Saturday Sept 28• User owned groups is around the corner in the Fall, and I was looking for a couple of early testers. Simon Krughoff and Colin Slater (who wasn't there) volunteered. I need to tell the folks here that these are the testers to "opt them in" to have their own groups.• Ldap federation for new people wasn't working for about 1.5 weeks. We found the problem in our code. It is working now.• We are working on a ticketing way so that Ci-logon will get potential problems since watching IHS tickets isn't the way that they interface with their user community.• NCSA's 7*24 operations center group (TMG) is getting involved in watching the DM-infrastructure channel and the IHS Jira tickets so that they can get trained up for monitoring things and helping to alert to problems when we go on-sky with auxel.• Procurement request sheet is up on the confluence: Data processing services for FY2020 (Procurement at LDF 2020)#/
add on items	Simon Krughoff	<ul style="list-style-type: none">• Would like to have the firewall rules dropped during the JSR next week fore ease of use of the demos.• That was approved by the end of the meeting from the security group and Unknown User (mbutler) has got a ticket getting that done and in place.
