I (John Swinbank) propose that we make this ticket block the next release. Does the DM-CCB concur? Note that it *will* cause a publicly-visible API change, but one that has been in the offing for six years. • I propose to close DM-6602 as "won't fix", on the basis that LDM-472 is obsolete. We should also officially mark LDM-472 as obsolete. But we should discuss all this with Wil O'Mullane before doing so. • DM-5721: Won't fix. • DM-5857: Still valid; added comment. • DM-5862: As DM-5857. • DM-5724: Has been marked as "won't fix" since December 2019; not sure why it appears on this list.
