https://bluejeans.com/293724745/	<ol> <li>Dial: 199.48.152.152 or bjn.vc</li> <li>Enter Meeting ID: 293724745 -or- use the pairing code</li> </ol>	Dial-in numbers:

#### Time

10:15am PT

## Attendees

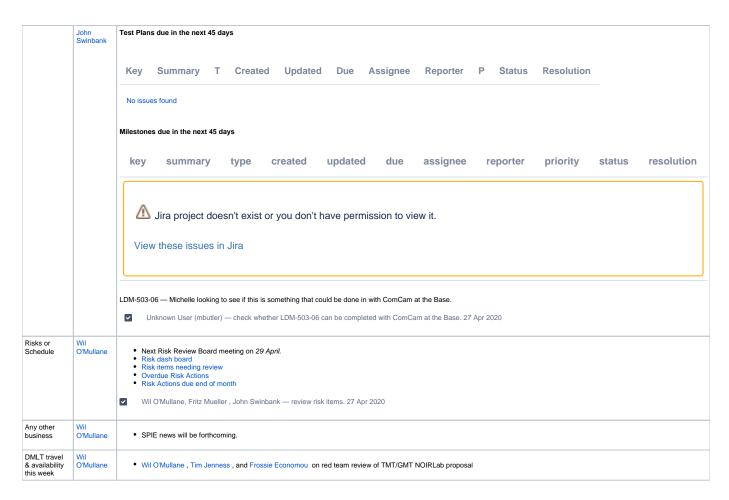

- Eric Bellm Jim Bosch
- Fritz Mueller
- Frossie Economou
- Unknown User (gcomoretto)
- Jeff Kantor Leanne Guy
- Unknown User (mbutler)Robert Gruendl
- Robert Lupton
- Simon KrughoffWil O'Mullane
- Yusra AlSayyad
- Zeljko IvezicJohn Swinbank
- Colin Slater Tim Jenness

# Excused

## Discussion Items

Item	Who	Notes		

Project updates	Will O'Mullane	Joint Agency Quarterly progress meeting, 5 hours Tuesday April 28.  • (lew slides on progress in last quarter.  • How to get restained.  • Was to be in Chille to show progress. • More now on how to re baseline.  • Data Facility and ope review have been distracting the agencies.  Ops review - clearly dependent on re-baseline.  • Mentioned that DF and schedule made the committee feel a bit lost since the review was still of a proposal.  • Clouck mentions non labor such as sparse sepecially high cost items. Also suggestion to buy sparses now while Peso is favorable. Fairly positive in general not many significant display positive or project.  Ranpat:  • Logo development plan meeting today with Victor + others. Survey to go out to everyone.  • Detector engineering NOIRLab workshop last week — we were unaware and no one from the project attended. There will be more will try to make sure people are notified of similar meetings in future.  • Spain shuddown to May 9th; new visa appointments for Wil & Ranpal on June 24 (was May 8).  Victor mentions that at least one L2 NOIRLab manager will come from Rubin in the next week or two. These are all AURA internal.  Zeljko:  • WFIRST cover all of WFD giving 7th band - paper suggests this would boost LSST merit by 2.4  • https://anxiv.org/abs/2004.04702  Chuck Claver, Kevin Rel:  • ComCam is taking images (no filter changer yet; needs another lift)  Jeff Barr:  • Will try to do some work during next visit to the summit (electrical and casino).  • Louver fabrication contract setup - some industrial capability starting up in Italy (and Spain).  • Dome software advancing well - software is progressing in lock down.  • No idea when restrictions will be lifted in Chile.  Vincent Riot:
		<ul> <li>SLAC talking about getting back to work - Masks etc, 3 - 6 months . LSSTCam is considered critical so will be allowed back as early as possible.</li> <li>Chuck Gessner:</li> <li>Back to work in Tucson potentially end of month (if state restrictions lifted). Tohono O'odham Nation extended lockdown to June 4.</li> <li>We note there are obvious problems with this when schools are closed.</li> </ul>
ССВ	Unknown User	From the DM perspective, there will be no rush back to work until everything is safe.      Usual few issues escalated.
Joint Agency	(gcomorett o)	
Review of Operations	OMullane	<ul> <li>Successfully completed!</li> <li>Thanks to everybody who participated.</li> <li>Recommendations for Data Production:</li> <li>1. Strongly pursue resolution of the location of the operations phase US DF. This decision lies in the critical path for Data Production, and critical decisions and risk mitigation cannot proceed without this decision.</li> <li>2. Develop a detailed schedule and cost impact estimate for the projected (April 2021) delay in the resolution of the US DF. Provide guidance for possibility of additional 6 month delay.</li> <li>3. Develop a plan for start of Data Production with the currently projected delays due Covid-19, and potential construction project re-baselining. This plan should include schedule and cost impact estimates for an additional 6 month delay beyond the current projected baseline.</li> <li>4. Expand staffing level validations to include additional comparisons data production projects of similar size.</li> <li>5. Re-evaluate staffing levels in the Middleware and Algorithms teams for the second half of the survey and consider maintaining these teams at full strengths.</li> <li>6. Develop strategies to retain expertise from the construction project as personnel funding shifts from NSF to DOE</li> <li>7. Increase the sophistication of the storage and compute sizing models by including projected evolution of the processing power, decreased processing core costs, and evolution of algorithm sophistication. Potential models for investigating these trends can include historical trends observed over decade-long data production projects (Gaia, FERMI, LHC etc).</li> <li>Recommendations for System Performance:</li> <li>1. Consider strengthening the Verification and Validation team by the addition of a software engineer who would work on incorporating state-of-the-art techniques (e.g. machine learning) for a software solution that enables quick diagnosis of problems and scales well with time and data. [Report on this by October 2020]</li> <li>2. Consider the addition of 1-2 additi</li></ul>
DMLT F2F	John Swinbank	<ul> <li>In 3 weeks.</li> <li>Please add topics to the suggestion box by this time next week.</li> <li>Suggestion to spread over more days for smaller time per day.</li> </ul>

#### **RFCs**

#### **Overdue**

#### Due this week

# Action Items

## **Confluence Quick Tasks**

Description	Due date	Assignee	Task appears on
Frossie Economou Will recommend additional Level 3 milestones for implementation beyond just the DAX-9 Butler provenance milestone. 15 Mar 2022	15 Mar 2022	Frossie Economou	DM Leadership Team Virtual Face-to-Face Meeting, 2022-02- 15 to 17
Kian-Tat Lim Convene a meeting with Colin, Tim, Robert, Yusra to resolve graph generation with per-dataset quantities (likely based on Consolidated DB work). 18 Mar 2022	18 Mar 2022	Kian-Tat Lim	DM Leadership Team Virtual Face-to-Face Meeting, 2022-02- 15 to 17
Frossie Economou Write an initial draft in the Dev Guide for what "best effort" support means 17 Nov 2023	17 Nov 2023	Frossie Economou	DM Leadership Team Virtual Face-to-Face Meeting - 2023- Oct-24
<ul> <li>Convene a group to redo the T-12 month DRP diagram and define scope expectations Yusra AlSayyad30 Nov 2023</li> </ul>	30 Nov 2023	Yusra AlSayyad	DM Leadership Team Virtual Face-to-Face Meeting - 2023- Oct-24
Gregory Dubois-Felsmann Complete DMTN-105 defining the goal for "Prompt Products Release Ops" 11 Dec 2023	11 Dec 2023	Gregory Dubois- Felsmann	DM Leadership Team Virtual Face-to-Face Meeting - 2023- Oct-24
