• RFC-699:
  ○ be sure files written can be read back
  ○ on gen3 that should be better addressed
  ○ Migration scripts can be used to keep data repositories usable
  ○ John Swinbank : each release N should provide migration scripts to migrate data repositories created with release N-1.
  ○ The RFC requires more thoughts.
• RFC-695: DPDD, still open |

3. ⚠ DM-3115 - Jira project doesn't exist or you don't have permission to view it.

4. ⚠ DM-6122 - Jira project doesn't exist or you don't have permission to view it. | • DM-1510: Up to Kian-Tat Lim. The fact we've lived with this issue since almost the start of construction at least implies it's not urgent.
• DM-3115: Should be withdrawn? Tim requested a ruling from Kian-Tat Lim .
• DM-6122: Are there still parts of the Dev Guide where this is an issue? I think the coding standards are clearly marked, and other material is covered by my PR (I know, I know, still in review...). Suggest closing as "Won't Fix".
• DM-8591: Effectively done. John Swinbank will take care of it after this meeting.
• DM-9145: Examples are still broken. Given that they have been since 2014 and ~nobody has complained, I don't see this as urgent, but it is embarrassing. Suggest there's no point in making significant efforts to fix until we have a way of Cling examples, though.
• DM-5305: Old; low priority; added comment to ask product owner if they still care.
• DM-9214: Old, low priority, still valid. Added comment.
• DM-9215: Old, low priority, still valid. Added comment. |
