Time

10:15am PT

Attendees

- Colin Slater
- Eric Bellm
- Fritz Mueller
- Frossie Economou
- Kian-Tat Lim
- Leanne Guy
- Robert Gruendl
- Robert Lupton
- Simon Krughoff
- Wil O'Mullane
- Yusra AlSayyad
- John Swinbank
- Unknown User (gcomoretto)
- Jim Bosch
- Gregory Dubois-Felsmann
- Unknown User (mbutler)

Discussion Items

Item	Who	Notes
Project updates	Wil O'Mullane	• Logistics for review - (Plenary) slides should be provided today. Confirmed that not officially release docs are fine for JDR. • Trying to get the telescope/camera ICD properly formalized "as built" - there are potential non conformance on both sides. This will be an on going discussion in the next while (coolant, temperature ..) started with LCR-2303 (especially the comments).
Snowmass 2021 Meeting	Wil O'Mullane Leanne Guy	Every half-decade or so the US high energy physics community engages in a planning process that looks ahead five to ten years to prioritize possible future directions and projects. There used to be a meeting lasting several weeks in Snowmass, Colorado for this exercise. Although we no longer have a long meeting there, the name Snowmass has stuck. The previous plan was called Snowmass 2013, and we are now working on Snowmass 2021, which will culminate with a large meeting July 11-20 in Seattle and a report later that Fall. Details can be found at the wiki snowmass21.org The planning is organized by "Frontiers," and we would like to introduce the Computational Frontier. It is important that experiments and groups doing large scale computations be well represented in the Computational Frontier. The main page in the wiki for this frontier is here: https://snowmass21.org/computational/start We have been asked if some DM people would attend this meeting. Action on everybody to review this and see if they will be interested. Yusra AlSayyad will be going to a kick-off meeting today and will report back. ☑ All DMLT — Review Snowmass 2021 website and decide if you are interested. 20 Jul 2020
