# **Discussion Items**

Item	Who	Notes
Project updates	Wil O'Mullane	<ul> <li>JDR note to everyone. Committee recognized the effort. Slides should be on project protected site (in google drive right now still needs to made official).         <ul> <li>Not obvious, of course, that this committee is representative of JSR.</li> <li>A few management items need to be tidied up for JSR (COVID, transition top ops, Completeness). Potentially making concrete plans for hand over to operations of parts of Rubin. (Discussion about AuxTel and hotels, base facility - whats the difference between Rubin Operations and NOIRlab Operations? No difference from project management - its off MREFC (delivered).</li> </ul> </li> <li>New document portal(Isstic)) seems to spook management. New document group is working on this for hand over to operations.         <ul> <li>Frossie will make the fort page statement more restricted.</li> <li>Will not go in digest this week.</li> <li>Make sure that your DMTNs (or other docs on GitHub) don't contain any private details!</li> </ul> </li> <li>Coquimbo and La Serena will be on Mandatory Quarantine starting Wednesday 22:00 pm - Official information from Chile Ministry of Health         <ul> <li>no trips to Chile - border closed to foreigners</li> </ul> </li> </ul>
Snowmass 2021 Meeting	Wil O'Mullane Leanne Guy	<ul> <li>Discuss DM involvement in the Snowmass 2021 meeting. In particular:</li> <li>Yusra AlSayyad went to a kick-off meeting. What happened? Is she getting further involved? Does she recommend that others get involved?</li> <li>The particle physics equivalent of the decadal survey.</li> <li>The report is due a year from now.</li> <li>Working groups formed to address each "frontier" — neutrinos, cosmic, etc.</li> <li>Computational Frontier: https://snowmass21.org/computational/algorithms</li> <li>Yusra went to the Experimental Algorithms WG within the Computational Frontier.</li> <li>There was involvement from other members of the astronomy community.</li> <li>They were not enthusiastic about cloud computing: they were curious that we are pushing in that direction.</li> <li>Next steps: more meetings, LOE submission deadine in late August.</li> <li>Do any other members of the DMLT want to engage?</li> <li>Yusra will continue, but is on but one of tens of WGs.</li> <li>Frossie is "keeping an eye" on the compute side, and is on their Slack.</li> <li>Likely to be some impact on Rubin Ops due to the DOE funding connection, plus long term funding impact.</li> <li>DESC liaisons (Leanne Guy , Robert Lupton)should ensure that there's adequate Rubin representation on this group.</li> </ul>
DM-CCB	Unknown User (gcomoretto)	• Usual.

Reviews	Wil O'Mullane	<ul> <li>Confluence page with key dates &amp; agenda: JDR2020/JSR2020         <ul> <li>JDR: 20–24 July (last week)</li> <li>Any feedback or issues we need to respond to before the JSR?</li> <li>Risk sildes — adding architecture risk, and new requirements on security exposure needs to be increased (could bump this exposure further, due to Huawei regulations; Jeff Kantor will review).</li> <li>Milestone Gant chart needs to be added.</li> <li>JSR: Augus 31 – 3 September (5 weeks away)</li> </ul> </li> <li>Document pack.</li> <li>Some documents have already been RFCed and will be in CCB this week.</li> <li>Otherwise, please finish your docs that were in draft for the JDR and make sure they don't say "draft" on them for the JSR.</li> </ul>
DMLT vF2F	John Swinbank	<ul> <li>2020-09-15/17; seven weeks away.</li> <li>As usual, there's a suggestion box on the wiki page: please add topics.</li> </ul>
OR2	Wil O'Mullane / Robert Gruendl	<ul> <li>OP Rehearsal kickoff/pre-meeting: July 27, 2020 on going just now.</li> <li>Will start this afternoon chile time - complete before lockdown 22:00 Wednesday</li> <li>All seems ok.</li> </ul>
