| AOB | | <p>Robert Lupton asked informally (in #dm-camelot and #dm-ccb slack channels) to do a path on 18.0 release:</p> <ul style="list-style-type: none"> "Over on the PFS project, we've found that <code>sconsUtils</code> doesn't support <code>debian</code>. We are using <code>v18</code> as a base (we'll go to <code>Rubin-latest</code> once <code>gen3</code> is stable), so we can't just submit a patch to <code>sconsUtils</code> master/main. PFS can handle this in their world, or we could ask for a <code>v18</code> patch release. What would Rubin like them to do? " <p>DMCCB considered the proposal and decided that a patch release based on 18.0.0 major release is not justified this time. It has been considered also that we now use conda compilers for all builds.</p> |
