

# DMCCB#112 (2021 - 11 - 24)

## Location

Zoom link available on Slack channel.

(Back to the [DMCCB](#) page)

## Time

From 9.00 to 09.30 PT, Wednesday, November 24th, 2021.

Attendees

Regrets

## DMCCB Meeting Goals

- See DMCCB responsibilities listed in [LDM-294](#) section 7.4

## DMCCB Additional Resources

- [#dm-ccb](#) slack channel

## Discussion Items

Item	Description	CCB Notes
Flagged RFCs  (To be approved by the DMCCB)	<div><div><div><div><div></div><div>RFC-771 - Jira project doesn't exist or you don't have permission to view it.</div></div></div><div>Planned end: Apr/21/2021</div></div></div>	804 - awaiting Jim
	<div><div><div><div><div></div><div>RFC-783 - Jira project doesn't exist or you don't have permission to view it.</div></div></div><div>Planned end: July/31/2021</div></div></div>	771 - Awaiting <a href="#">Gregory Dubois-Felsmann</a>
	<div><div><div><div><div></div><div>RFC-804 - Jira project doesn't exist or you don't have permission to view it.</div></div></div></div></div>	783 - tim working on it - some code to review , backward compatability of property set needs some thought. KT may have counter proposal still
	<div><div><div><div><div></div><div>RFC-813 - Jira project doesn't exist or you don't have permission to view it.</div></div></div></div></div>	813 - <a href="#">Cristián Silva</a> to comment

Board Recommen ded RFCs	<ul style="list-style-type: none"> <li>  RFC-802 - Jira project doesn't exist or you don't have permission to view it. </li> </ul>	
Proposed RFCs  (to review, do not require DMCCB approval)	<ul style="list-style-type: none"> <li>  RFC-812 - Jira project doesn't exist or you don't have permission to view it. </li> </ul>	
Adopted RFCs without Triggering issues  (to create implementi ng DM issues)		
Adopted RFCs with all triggered work COMPLET ED  (to set status as 'IMPLEME NTED')		
RFCs adopted since the last DMCCB  (to review, no action required)	<ul style="list-style-type: none"> <li>  RFC-803 - Jira project doesn't exist or you don't have permission to view it. </li> <li>  RFC-814 - Jira project doesn't exist or you don't have permission to view it. </li> <li>  RFC-811 - Jira project doesn't exist or you don't have permission to view it. </li> </ul>	803 - Friday

<p>RFCs implemented (or withdrawn) since the last DMCCB</p> <p>(to review, no action required)</p>	<ul style="list-style-type: none"> <li> <div data-bbox="305 163 1149 331">  <a href="#">RFC-801</a> - Jira project doesn't exist or you don't have permission to view it. </div> </li> <li> <div data-bbox="305 331 1149 499">  <a href="#">RFC-245</a> - Jira project doesn't exist or you don't have permission to view it. </div> </li> </ul>	
<p>Releases</p> <ul style="list-style-type: none"> <li>Planned</li> <li>Changes to the release schedule</li> </ul>	<ul style="list-style-type: none"> <li>Next planned Release 23.0.0: <ul style="list-style-type: none"> <li> <div data-bbox="350 636 1206 804">  <a href="#">DM-29437</a> - Jira project doesn't exist or you don't have permission to view it. </div> </li> </ul> </li> <li>Backport requested for <div data-bbox="305 852 1161 1020">  <a href="#">DM-32649</a> - Jira project doesn't exist or you don't have permission to view it. </div> , but  it requires a followup ticket for backwards compatibility. (You can't make warps from old calexps if using PsfWcsSelectimagesTask) From a v23 perspective, must backport both or neither. From DP0.2 perspective, if both backported, need only this ticket for step1. DP0.2 plan was to backport this , build rc4 today and kick off pilot runs over the weekend make up time (we are 1 week behind.) </li> <li>Release process requires manually tagging ci_*. I went through K-T's list of DM Auxiliaries and looks like I should be manually tagging the ap_verify_* repos (which look like they've have updated after w_2021_40). OK?</li> </ul>	<p>One backport needed is not backward compatible - needed for QA .</p> <p>There will be a compatibility fix next week which will need to be back ported.</p> <p>All seem to agree this is ok.</p> <p>This would be an RC5 - but not need a pilot run since. The backward compatibility code should carry a deprecate in N years note.</p> <p>Codekit will not move existing tags it was about to set.</p>
