

**2014-11-17 Change to LDM-240**

On November 17, 2014, DM Project Manager, Jeff Kantor, approved Docushare version 10 of LDM-240 "Data Management Releases" and set the Docushare preferred version to that instance.

The notification memo follows:

---

From: Jeffrey P Kantor <jkantor@lsst.org>

Date: Mon, 17 Nov 2014 10:43:15 -0700

To: <lsst-dm-lt@listserv.lsstcorp.org>

Hello all,

I updated LDM-240 with the additional feedback from John Swinbank and Frossie regarding the remaining red and yellow items.

This includes putting the "Source association and matching R&D code refactored=E2=80=9D item into FY15, conditional on hiring the SQuaRE lead scientist. Frossie, please put a stretch goal epic/stories into JIRA.

This also serves notice to the TCT that this latest version is in docushare as the baselined preferred version.

Thanks!

Jeff
