Agenda

- Top Priority = OpSim Review (ready by Jan end)
- Deliverables (Review JIRA summary)
 - Understanding and Validating v3.0beta3+ / new Reference Run
 - Document explaining v2.6.1 vs. v3.0; outline?
 - Release of SSTAR v4.0
- Metrics Framework – timelines/tasks to framework review
- Daylight Savings Time US starts Sunday

Attendees: Abi, Steve, Kem, Cathy, Srin, Andy, Zeljko, Victor

Notable

- OpSim Review is tentatively scheduled for the week of Feb 3, 2014. It can't slip further out as conflicts with the Gem Show (accommodations will be unavailable) and member travel. A Dry Run is scheduled for the week of Jan 20.
- An updated Activity Plan is posted [here](#). It is a ballpark time estimate and planning document but should reflect the current scope and status of the teams work.
- v3.0 Simulator:
 - Next steps with the will be to complete tasks needed for the v3.0 release, then start on lookahead and start/stop.
 - Validation runs have been started.
- v4.0 SSTAR:
 - Close to completion; validation will follow.
 - Will likely be paired with v3.0 as a complete set of tools
- Framework:
 - Srin will coordinate effort on the design
 - An Internal Design Review will take place in a few weeks (TBD)
- Deliverables for OpSim Review
