DMLT Travel & Availability this week							
Any Other Business		<ul> <li>GPDF: We made a commitment at AAS to release DP0.3, based on a catalog-level simulation of LSST-style Solar System object data, this summer (the stated commitment is "between June and September"). There is a technote in progress: RTN-050.</li> <li>LG: want to stress that the catalogs are provided by the solar system group, and we are not responsible for V&amp;V of it.</li> <li>GPDF: We are responsible for providing reasonable metadata, consistent with the DPDD</li> <li>GPDF: This is entirely catalog level data, there are no images - and it is not connected with the DP0.2 simulation in any way.</li> </ul>					
TCAM Stamdup	Frossie Economou	as needed					
Action review		RHL: The FAFF2 report should be out in a few weeks, we will then start working on trying to implement things. As we move to implementation, will probably ask Patrick to work on that. Carlos can help with the environment, should be in contact with K-T					

# DMLT Action Items (Confluence quick tasks)

Confluence action items on DMLT meeting minutes pages are meant to be mainly low-level actions that can be completed quickly. More substantial tasks should appear in JIRA. The label "DMLT" can be used (with any component) to mark a task as resulting from a DMLT action item.
