Date

20 Jan 2015

Attendees

- [Russell Owen](#), [Jacek Becla](#), [Simon Krughoff](#), [John Swinbank](#)
- Guests: ...

Discussion items

Who	Notes
Jacek	<ul style="list-style-type: none">• No blockers.• Monday was holiday, not much happened since last Standup call• Temporarily focusing on XLDB-2015 prep
John	<ul style="list-style-type: none">• No blockers.• Having "fun" with differences in the math library on OS X and Linux (DM-1086).• Jim landed DM-1725, so the stack can be built with modern (4.8+ gcc) & hence is usable on recent Ubuntu etc.• Princeton Astrophysical Sciences moving buildings over the next couple of days.<ul style="list-style-type: none">◦ Hopefully that means little/no disruption, but if we are slow to respond it likely means something broke!
Xiuqin	<ul style="list-style-type: none">• Monday was holiday. Nothing much happened since last Friday.• At Tucson for UML training.
Simon	
K-T	Discovered that going to a full pimpl-style wrapper around the already-existing but log4cxx-unique smart pointers caused more problems than the elegance was worth; working on another rewrite, but busy with meetings this week.
Frossie
