25th March 2015

attending:

- Today we will have a demo by Rahul on the SNe generation and then followup from last weeks face-to-face:
  - Status of hacks and writing up the progress
  - Actions from the cadence workshop
  - Plans for the next quarter of work (including status update on this quarter of work)
  see https://confluence.lsstcorp.org/display/SIM/Spring+2015
  SNe generation: (Installation procedure in the README of https://github.com/rbiswas4/SNIacatalogs , we will use examples/SNinCatSim.ipynb in the demo, a static version of the notebook is available at http://nbviewer.ipython.org/gist/anonymous/deb1821e8f69def6d7b5)
