

6th May 2015

Attending: ajc, Scott Daniel, Peter Yoachim, Michael Reuter, Darko, Cathy Petry, Kem Cook, Rahul Biswas, Simon Krughoff, Veljko, Chris Walter, Simon, Bryce, Lynne Jones, George

This week's agenda:

- New interface to code repositories (ajc)
 - see dm.lsst.org/browse
- Walkthrough of Github (Michael)
 - including creating issues, generating branches, issuing pull requests, commenting on code and merging the pull request.
 - Workflow of whether we should delete branches on merge (will we lose information)
- Updates on baseline cadence from Zeljko
