

# PDAC Meeting 2016-08-26

## Date

26 Aug 2016

## Attendees

- Ultimately a meeting was not held on this date; actions will be carried forward.

## Goals

- Ensure that PDAC work progresses toward the end of November deadline for initial deployment

## Discussion items

Time	Item	Who	Notes
15 min	External access to PDAC DAX services at NCSA	<a href="#">Brian Van Klaveren</a>	<ul style="list-style-type: none"><li>• Proposal for putting an authentication/authorization layer in front of the DAX services of the PDAC to allow IPAC team members to access them from a Firefly server</li></ul>
15 min	"Isst-dev" server for Science Pipelines group use	IPAC	<ul style="list-style-type: none"><li>• Look at a written proposal for running a persistent Firefly server, separate from PDAC, that has access to the Science Pipelines group data that is mounted on the Isst-dev system(s)</li></ul>

## Action items

### Pre-meeting

- ☒ Unknown User (xiuqin)24 Aug 2016 With Trey Roby and Gregory Dubois-Felsmann, prepare written proposal for the persistent server for SciPi use (This is not in SUIT scope any more)

### Post-meeting
