

# Dec 2016 hardware removal

Dec 12 2016. C. Stubbs

Since the all-sky camera has quit operating, I went over to the ALO building and removed:

- Canon camera and lens
- Mac computer
- data storage disks
- cables and power supply for Canon
- RF dongle and filter

I left:

web power control strip

DC supply and preamp for ADS-B antenna

ADS-B antenna on roof.
