

Data Access meeting 2017-02-06

Date

06 Feb 2017

Attendees

- [Gregory Dubois-Felsmann](#)
- [Unknown User \(xiuqin\)](#)
- [Fritz Mueller](#)
- [John Gates](#)
- [Kenny Lo](#)
- [Kian-Tat Lim](#)

Goals

- Follow up on near-term DAX needs

Discussion items

Time	Item	Who	Notes
	metaserv	Brian Van Klaveren	
	imgserv cutout service	John Gates	

Action items

- ☐ [Brian Van Klaveren](#) Discuss proposed resolution for naming conventions in the API with the SUIT group. **09 Feb 2017**
- ☐ [Fritz Mueller](#) Ensure that the very-near-term metaserv API expected to be delivered by [Brian Van Klavern](#) (resulting from reviving the previously existing metaserv implementation) is documented. **09 Feb 2017**
- ☒ [Kenny Lo](#) Put the agreed-upon single-image cutout APIs from last week's meeting onto the API Confluence page. 09 Feb 2017
- ☒ [Kian-Tat Lim](#), [Kenny Lo](#) Confirm that the API for broken-down IDs is as discussed in today's meeting: it must return a unique result, and therefore all components must be specified. Document a specific proposal on the API Confluence page. 09 Feb 2017
