Middleware Meeting Notes 2014-05-29

Date

May 29, 2014

Attendees

- Kian-Tat Lim, Steve Pietrowicz, Greg Daues

Discussion Items

Steve

- * Added Archive DMCS (most of DM-564)
- Need to check that information about raft is getting to distributor
- For workers, don't currently have 193 slots
    - Also using current pool for replicators
    - Need at least one new HTCondor pool, perhaps two

Greg

- Improving Rank expression to prefer empty slots over cache spills
- Still working on putting tasks into JIRA
    - Did close out previous tasks
- Looking at Docker for DES
    - Will report any problems and general experience; Jacek is interested

Disrupted meeting schedule in June

- No meetings June 3, 5, 12, 17, 19.
- Greg and K-T only on June 10.
- Back to regular schedule June 24.
