

30th May 2014

Attendees : Abi, John, Monet, Cathy, ajc, Scott, Peter, Lynne, Kem, George, Bo, Kirk, Debbie, Richard

1. Agenda's for DESC and All-Hands are available (see attached). Please check for conflicts (eg people needed at your session will likely be required at a competing session) and for areas that we might combine with other groups.

DESC Meeting

- Abi or SteveR will attend the meeting to represent opsim and scheduler
- Chris: we need to present the opsim->catalogs->phosim capabilities (ajc will add that to the SN2 session) DONE
- High level description of MAF - big picture overview needs to come across
- We have coverage of all of the sessions

Access to LSST documents using the URL shortener will access docushare

- <http://ls.st/document-16282>
- "document-#" can be changed to include the standard names of documents (e.g. LSE-80)

All hands meeting

- Tuesday:
 - Chris will coordinate the #26, #18, and #27 sessions (about sensors)
 - John will ask Glenn to attend #50
 - ajc recommends attending #30 and #42 (tools for viz and debugging of code)
- Wednesday:
 - We need an opsim, phosim, catsim representative at #3 (Sys Eng database) and #5 (Cerro-Pachon sky)
 - John will attend #52 (wavefront sensing)
 - ajc recommends attending #53 and #34 (DM stack boot camp)
- Thursday:
 - #20 (developing opsim) is an opsim and scheduler meeting
 - We will merge science usage of phosim and recipes into #17
 - Transient meeting is being moved so we may not need to move #20
