

# Fall 2017 QA Meeting: 2017-11-07

Present: [Lauren MacArthur](#), [Unknown User \(tmorton\)](#), [Sophie Reed](#), [John Swinbank](#) (with special guest looming by [Robert Lupton](#)).

- Lauren:

- Has started work on

[DM-11345](#) - Jira project doesn't exist or you don't have permission to view

it.

. This will be the

dataset which forms the basis of the LDM-503-2 milestone, so we'd like to get it nailed down soon so we can provide details to our colleagues in the Data Facility. We agreed to timebox this activity, with the aim of saying that whatever data Lauren has assembled by this time next week becomes **the** RC, at least for LDM-503-2 purposes.

- Has been trying to analyse some of her "new RC" data as processed in the earlier [S17B HSC PDR1 reprocessing](#), but ran into problems with files being in the wrong places. Not sure what the issue is here; apparently worked for [Unknown User \(tmorton\)](#). Will investigate further.

- Is waiting for DESC review of

[DM-11452](#) - Jira project doesn't exist or you don't have permission to view

it.

. A few

minor technical hiccoughs, but we hope this will be closed soon. We agreed that providing substantial technical support to DESC is out of scope.

- 

[DM-12038](#) - Jira project doesn't exist or you don't have permission to view

it.

is basically ready to go, but is waiting

for DM-11452 to close since it is based on top of it.

- Tim:

- Has produced a spatially binned visualization of photometric reproducibility! He cautions that it's a bit slow and not polished, but it looks impressive. He will discuss further with Robert after the end of this meeting.

[DM-12071](#) - Jira project doesn't exist or you don't have permission to view

it.

- Is ready to mark both

[DM-12251](#) - Jira project doesn't exist or you don't have permission to view

it.

and

[DM-12381](#) - Jira project doesn't exist or you don't have permission to view

it.

as done, but needs to catch up with

JIRA admin.

- After addressing any feedback on DM-12071, he will move on to look at

[DM-12252](#) - Jira project doesn't exist or you don't have permission to view

it.
