13th June 2014

Attendees : ajc, cathy, chris, chuck, kem, knut, Michael, Scott, Seth, Srini, Debbie, Lynne

Cadence workshop

- Peter: went well, code in good shape but we need to organize how to teach MAF better
  - more cooking show style presentation walking through the code (showing the config and then build upon what the code can simplify for you)
  - viz layer needs development
  - Will change the naming of the *binner* to *slicer*, and change the iteration so slicer is iterable.
    - Lynne will write up the new slicer interface
  - Documentation and examples need to be put in place
- Kem: talks went well
  - Zeljko's talk will be broken into two and Kem will take over the cadence discussion
  - Peter will post the current talks (minus Kem and SteveK's talks)

All-hands

- Chris: still need to resolve the session on DM algorithms with phosim
- ajc will put Chris in touch with Rob McKercher and send round latest agenda

Next week's telecon is cancelled
