Infrastructure Meeting Notes 2018-09-27

Infrastructure meetings take place every other Thurs. at 9:00 Pacific on the BlueJeans infrastructure-meeting channel: https://bluejeans.com/383721668

Date

27 Sep 2018

Attendees
  Gregory Dubois-Felsmann
  Igor Gaponenko
  Fabio Hernandez
  Brian Van Klaveren
  Michelle Butler
  Simon Krughoff
  Kian-Tat Lim
  Fritz Mueller
  John Swinbank

- Discussion items

Item	Who	Notes
Review of last meeting notes	Michelle Butler	Maintenance went just fine except the Qserv master 01's board replacement didn't work, and didn't get fixed until Saturday afternoon. New board didn't work, and required IBM's help with bios settings and other "things" to see the HDD and allow for booting.
Procurement	Unknown User (mbutler)	moving along. will be posted soon. Michelle will be working with Wil O'Mullane on the budget and what to order based on the budget, and the wants/needs of the Tcams and what was posted on the DM procurement page that John Swinbank created.
PDAC K8 into K8 common	Fritz Mueller and Unknown User (mbutler)	next week after Fritz is back, will meet with him and Matt Long about getting the K8 pdac environment into the K8 commons. There was a discussion about the authentication for the SUI applications, and it wasn't determined if the k8 move to the commons should be delayed due to this functionality not working... or if it wouldn't cause anymore problems to the config by moving it since it's not working already. Unknown User (xiuqin) brought up this problem. Kian-Tat Lim and Brian Van Klaveren are going to work on this determination and a possible fix.
Security awareness	Unknown User (mbutler)	Current security warning on all machines, and have a work around installed yesterday, but it won't outlast a reboot. systems will be rebooted when the patch is available.
A&A discussion	Unknown User (mbutler)	A machine deployment discussion for the A&A systems (LDAP and Kerberos) for the spectragraph and Chile and Summit.
Qserv-master 2	Unknown User (mbutler)	Qserv master 02 deployed. (mbutler got it mixed up.. and will be deployed this next week) Sorry for the mistake that it was ready for work.
PDAC Status	Gregory Dubois-Felsmann	Above about the K8 into the common is all I got here.
