

# Federated Identity

*Federated Identity* allows you to log in to LSST web applications using *external identities* from your university, GitHub, Google, or ORCID identity.

## One Time Setup

A one-time setup is required to use your federated identity with LSST web applications.

First, visit <https://identity.lsst.org/> and click .

Then, enter your username and password and click .

Then, click  to manage your user profile.

Then, click .

Then, select your identity provider from the list:

Select An Identity Provider:

GIDP-RENAM

Gimnazija Bežigrad high school

GIP RENATER

GitHub

Search:

Remember this selection: ☐

By selecting "Log On", you agree to [CILogon's privacy policy](#).

It's a long list. Use  Search: .

Once you've selected your identity provider, click .

Then, log on at your selected identity provider. If you log on successfully, your browser will return to the [identity.lsst.org](https://identity.lsst.org/) site.

Then click  to associate the external identity with your NCSA account for LSST.

If successful, you will see your Profile page with a status message like the following:

Identity 148492@github.com successfully added to your profile

Your external identity will be listed near the bottom of your Profile page. For example:

---

## External Identities

---

148492@github.com

You have now successfully set up your external identity for use with LSST applications. You can repeat this process to set up additional external identities from other identity providers if you wish.

## Manage your External Identities

To view and/or remove your external identities, visit <https://identity.lsst.org/> and click

Then, enter your username and password and click

or click

to log on with your external identity.

Then, click

to manage your user profile.

Then, view the list of External Identities in your Profile.

To remove an external identity, click the

to the right of the identity you want to remove.
