Minutes:

Logistics:

Start at 9AM, finish at 5PM. Morning coffee at 10:30. Afternoon coffee at 15:00.

- [x] Simon Krughoff will contact Regina about room setup
- [x] Simon Krughoff will make sure Regina knows we will want simple projection setup.
- [x] Steve Ritz Check on guest WIFI access
- [x] Steve Ritz Will get FACTS form out for everyone to sign and return
- [x] Simon Krughoff check with Richard Dubois about what IPs to whitelist.

Confirm attendees:

- [ ] Keith Bechtol assign people to attendee list to track people down for confirming attendance.

Update on datasets:

Update from Merlin: Data has been copied over to NCSA. Data ingests. Robert's tests run, but there are complications due to the decision to go with (dayObs, sequenceNum) tuples.

- [x] Simon Krughoff will make headway on the demo notebook by producing something that runs on on-sky data by the end of the week. We can then transition to bootcamp data.

Task List:

- [ ] Merlin Fisher-Levine to help with workflow 55Fe.
- [x] Steve Ritz supply bad pixel masks
- [x] Simon Krughoff translate masks to DM format

First half day:

- [ ] Keith Bechtol to create a framework for discussing terminology
